

**Juvenile Law Course Offered By Adult School**

The Adult Education Division of the Centinela Valley Union high school district announces the opening of a new course in Juvenile Laws and Problems which is being made available for the first time to people other than peace officers or those training for peace officer vocations.

This course is designed to assist those with children to recognize and understand juvenile problems and will cover general topics such as (1) General Laws affecting Juveniles; (2) Laws affecting parent and child; (3) Rights and Liabilities of minors; (4) Sex crimes in which Juveniles are victims.

This course will begin February 2 and will be held on Mondays, 7 to 9:30 p.m. at the Lennox high school in Building 3, Room 3. It will be taught by Lieut. R. H. Harrison who is in charge of the Juvenile Bureau of the Los Angeles County Sheriff's Station in Lennox. Persons interested in enrolling in this course, should go directly to the classroom on Monday, February 2nd. The only charge is 25c for a Student Body ticket which is good in all adult classes for the entire semester.

**Industrial Psychology Course Offered at EC**

Industrial psychology, a course designed for people in business and industry who are working in leadership capacities or in personnel service, will be offered this Spring on the Campus of El Camino College.

Registration for the class, which is scheduled from 6:30 to 7:30 on Monday and Wednesday evenings, is still open, college officials have announced. The class is listed in the college catalog as Psychology 21.

Offered by Instructor John Broe, the course will consider problems and techniques in employee selection, placement and adjustment. Such industrial situations as time and motion and plant layout will be considered from the standpoint of the workers' attitude and adjustment. A graduate of Occidental College and Graduate School, where he received his BA and MA degrees, Broe is presently in the process of completing work toward the PhD degree in psychology at the University of Southern California. He holds a certificate in industrial relations from the University of California at Los Angeles and is certificated by the State of California as a psychologist. He has had over five years practical consulting experience with the Bureau of Vocational Rehabilitation and in private industry.
